PROFILE INFO

Frontend developer with two years of expertise creating and executing user-focused websites, who is meticulous and passionate about what he does. Knowledgeable with contemporary web technologies such as JavaScript, HTML, CSS, TypeScript, and React. Skilled at working with cross-functional teams to produce solutions that are high-performing, responsive, and optimised. Devoted to maintaining current knowledge of market trends and enhancing technological proficiency on a constant basis.

EXPERIENCE

2024 - PRESENT
GetCommunication Ltd. | NO. 3 Levi Ahiauzu St., Omoku, Rivers State
Junior Frontend Developer

- Assisted in the development of user-friendly interfaces using HTML, CSS, and JavaScript for a variety of client projects.
- Worked closely with backend developers to integrate RESTful APIs and ensure seamless data flow between front and back end.
- Gained experience with version control systems (Git) and agile methodologies.
- Assisted with troubleshooting and debugging issues, leading to a more stable and reliable codebase.
- Integrated third-party APIs and services, enhancing application functionality and user experience.
- Collaborated with UX/UI designers to translate wireframes and prototypes into high-quality code.

PROJECTS

Lending / Loan Application

- Developed a fully-functional site using React, Tailwind CSS, React Query, React Router and React Hook Form, featuring user and admin dashboard, user authentication and authorization.
- Designed and built the application's front-end architecture, including the structure of components, state management, and data flow.
- Developed a responsive layout to ensure the application is usable and looks good on different screen sizes and devices.
- Developed and integrated front-end components with back-end APIs and services to fetch, display, and interact with data.

Crypto and GiftCard Purchase Mobile Application

- Developed a fully-functional site using React, Tailwind CSS, React Query, React Router, React Hook Form, TypeScript, React Native and Expo.
- Designed and built the application's front-end architecture, including the structure of components, state management, and data flow.
- Developed a responsive layout to ensure the application is usable and looks good on different mobile screen sizes.
- Developed and integrated front-end components with back-end APIs and services to fetch, display, and interact with data.
- Identified and resolved front-end bugs and issues, and performed regular maintenance to keep the application up-to-date and functioning properly.

EDUCATION

2018 - 2023 | Rivers State University
Bachelor of Science in Comp. Science

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript, TypeScript
- **Frameworks/Libraries:** React, Tailwind CSS, Sass
- **Tools:** NPM, Git
- **Other:** RESTful APIs, Responsive Design, Cross-Browser Compatibility
